Dispute concerning the cancellation of a long-term contract of affreightment in respect of the transportation of the entirety of the petroleum products needed by the state of Mauritius. That award was subsequently set aside by the Supreme Court of the Mauritius, on the ground that the contract of affreightment which formed the basis of the award was entered into contrary to the requirements of Mauritian public procurement legislation, with the result that the award was in conflict with the public policy of Mauritius. An appeal from the decision of the Supreme Court of Mauritius is to be heard by the English Privy Council in late January 2021. The appeal gives rise to interesting questions as to the scope of the public policy exception in respect of the setting aside of arbitral awards by the supervisory courts of the seat of the arbitration.
